

Storm Track

Weather Episode Reports

1326 Padstow Ln, Channelview, TX 77530, USA

Geographic Severe Weather Report

Provides a summary of weather episodes¹ across the selected time span centered around the entered location. Then 3 to 5 significant episodes are expanded to provide more detailed information for hail events².

These events are produced by a search of the National Weather Service historical analytics database based on NEXRAD III radar signatures.

¹An Episode is an entire storm system and can contain many different types of events.

²An Event is an individual type of storm event. (Thunderstorm, Wind, Hail, Tornado and Flood are events)

Significant Hail Events Surrounding 1326 Padstow Ln, Channelview, TX 77530, USA [11/01/2016 thru 11/01/2017]

Date	# Events	MaxSize*	Intensity**
2017-08-11	31	1.75	60
2017-08-10	17	.75	30
2017-08-07	33	.75	0
2017-07-15	53	1.5	70
2017-07-08	17	1	30
2017-07-07	7	1	30
2017-03-07	18	.75	20
2017-01-21	27	.75	20
2017-01-02	14	.75	20
2017-04-17	17	.75	30
2016-11-18	12	.75	20

DATE:

The calendar date the hail events occurred on.

EVENTS:

Total number of radar return signatures indicating 100% probability of hail of some size.

MaxSize*

Largest hail diameter, in inches, occurring in any of the events this day.

Intensity**

Probability that hail detected was of sufficient quantity and size to cause damage.

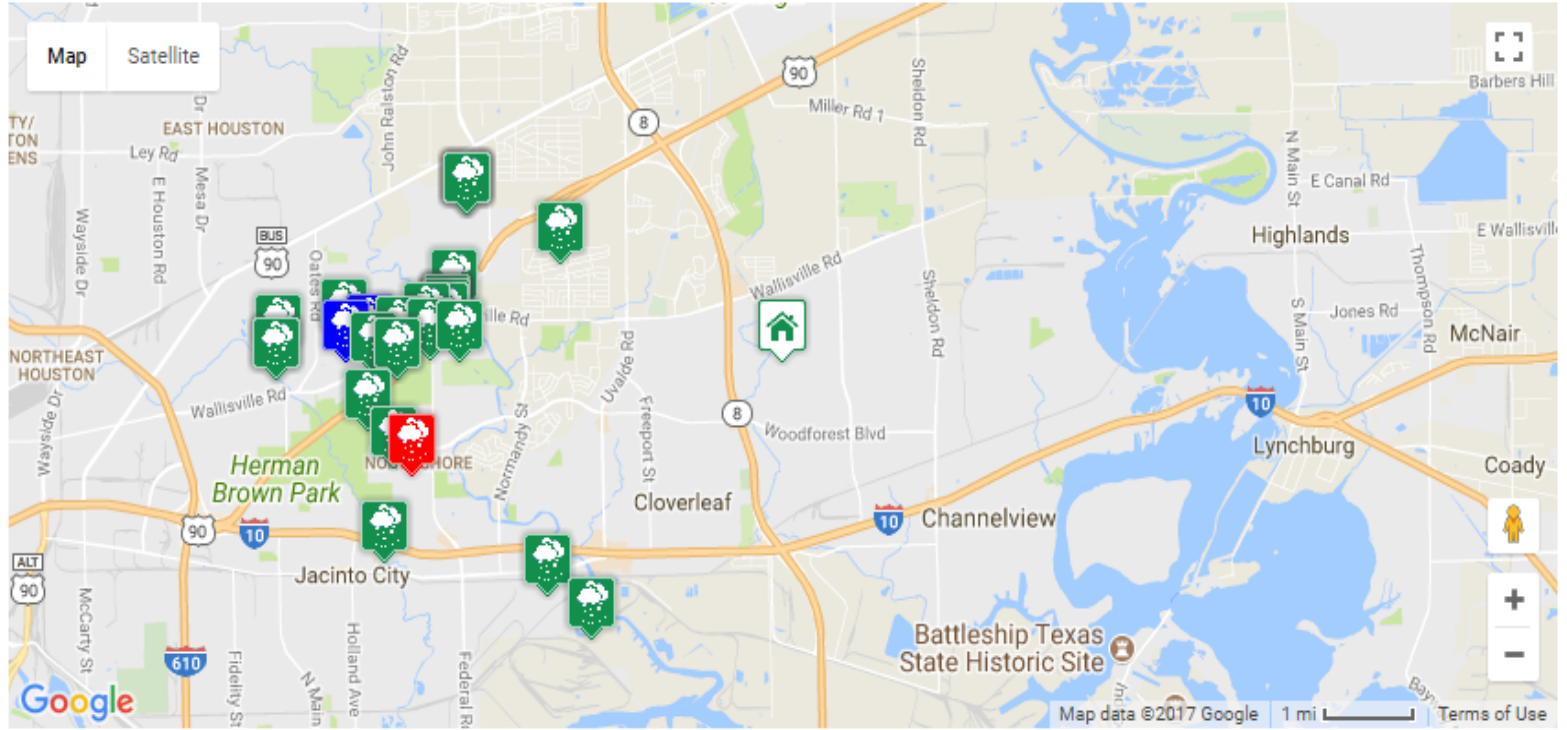

** The table only contains events for hail where the MaxSize was .75" or larger. Hail less than .75" is not believed to cause damage at any intensity.*

Not all of the events detected on any one date will have hail meeting this size constraint.
